Citi's Fixed Income Indices have rebranded to FTSE Fixed Income following their acquisition by the London Stock Exchange Group earlier in 2018.

Fund Objective

The investment objective of the State Street Spectrum Diversified Fund is primarily to achieve a moderate level of growth over the medium to long term. This is to be achieved by investing in the State Street GRU EMU Bond Index Fund, the State Street GRU Euro Index Equity Fund, the State Street GRU World ex Euro Index Equity Fund and the SSgA Euribor Plus Fund.

At the end of April 2015, the Spectrum Diversified Fund implemented an equity target volatility trigger (TVT) overlay. TVT is a transparent process that aims to provide a measure of protection against significant falls in equity markets. TVT forecasts equity volatility and dynamically adjusts the equity exposure within the Spectrum Diversified Fund in periods of heightened volatility thus offering an element of protection to unit holders. The Investment Manager may use the foreign exchange market to hedge some or all of the non-euro exposure in the underlying funds*.
